

Conference Call Benefits and Uses

LEGAL

Conference Call Benefits and Uses for Law Firms:

Leverage your firm's success by using Audio Conference calls and Web Conferencing solutions from SaveOnConferences.com. With SaveOnConferences.com, your firm will simplify depositions, speed up contract negotiations, and conduct secure conference calls any time, anywhere.

Each conference has a Host and Guest code to ensure the security of each session. By customizing the setup of each conference call, you can also specify your case number to aid you in separating your expenses for each case.

Key Benefits and Uses:

- Simplify the deposition process with digital recording and playback.
- Collaborate on contracts et al in real-time, without leaving your office.
- Toll-Free access allows participants to join conferences from any location.
- Dial-In Host and Guest codes offer an additional security.
- Reservationless conference calls afford convenient access.
- Dial-Out conference calls enable you to contact important participants and add a billing reference number to each call.
